Summary:
Enthusiastic software developer with 3 years of experience designing and implementing scalable web applications. Proficient in full-stack development, with expertise in JavaScript, React, Node.js, and MongoDB. Strong problem-solving skills and a passion for learning new technologies.

Education:

Bachelor of Science in Computer Science
University of ABC, Graduated May 2019
GPA: 3.9/4.0

Work Experience:

Software Engineer
XYZ Software Solutions, 2019 - Present
Developed and maintained multiple web applications using React.js, Node.js, and MongoDB
Collaborated with cross-functional teams to gather requirements, design solutions, and deliver high-quality software products
Implemented RESTful APIs for seamless integration between frontend and backend systems
Optimized application performance and scalability through code refactoring and performance tuning techniques

Projects:

E-Commerce Platform
Led the development of a full-stack e-commerce platform from conception to deployment
Implemented user authentication, product catalog, shopping cart functionality, and payment processing using React, Node.js, and MongoDB
Integrated third-party APIs for shipping and payment gateways to enhance the platform's functionality

Task Management Application
Designed and developed a task management application for internal use, streamlining project management processes
Utilized React for the frontend, Node.js and Express for the backend, and MongoDB for data storage
Implemented real-time updates using WebSocket technology to enhance collaboration among team members

Skills:

Programming Languages: JavaScript, HTML, CSS
Frontend Development: React.js, Redux, Angular
Backend Development: Node.js, Express.js, RESTful APIs
Database Management: MongoDB, MySQL
Version Control: Git, GitHub
Deployment & DevOps: Docker, AWS, Heroku
